

FLUTTER™

MUCOUS CLEARANCE

EBOS code: 27768100

THE FLUTTER IS A SMALL, LIGHTWEIGHT MUCOUS CLEARANCE DEVICE THAT REQUIRES NO POWER AND CAN BE USED ANYWHERE AT ANYTIME. IT IS AN EFFECTIVE ALTERNATIVE TO PHYSIOTHERAPY.

PRODUCT INFORMATION:

The Flutter works by the patient exhaling into the device, this causes the ball bearing inside the casing to vibrate. The vibrations travel back into the lungs and loosen the Mucous in the airways. Gentle coughing then removes the Mucous.

Sessions normally last between 5 and 15 minutes.

WHAT IS THIS PRODUCT USED FOR?

- Conditions such as cystic fibrosis, bronchiectasis and COPD
- Keeping the airways open
- Mucous clearance
- Ideal treatment for patients on the move
- Triggers patients to cough, which relieves Mucous from the chest

PRODUCT FEATURES AND BENEFITS:

- Small, portable device
- Easy to clean by simple washing
- Easy to use
- Low cost and effective option for Mucous clearance
- Short sessions required for maximum effectiveness

PRODUCT SUITABILITY:

- Hospital
- Clinic
- Home
- Travel

TECHNICAL DATA:

DIMENSIONS:	98 x 41 x 29mm
WEIGHT	85g
